

A Frequency Monitoring Code (FMC) is a unique code which shows radar equipped air traffic control units that you are monitoring a specific frequency.

Before selecting an FMC, you should ensure that you are operating within the FMC area designated for the appropriate Air Traffic Service. The appropriate frequency should then be selected before entering the FMC into the transponder.

You must remain outside controlled and other notified airspace and are not in receipt of an Air Traffic Service.

## Bristol FMC Area

Pilots operating outside controlled airspace, but within the area shown, who are not utilising the Lower Airspace Radar Service (LARS) provided by Yeovil Radar, Brize Radar, Boscombe Zone or Cardiff Approach are encouraged to monitor Bristol Radar on 125.650 MHz and select SSR code 5077.

Bristol Radar **125.650 MHz**  
Frequency Monitoring Code **5077**
