# Edinburgh

Frequency Monitoring Code (FMC)

A Frequency Monitoring Code (FMC) is a unique code which shows radar equipped air traffic control units that you are monitoring a specific frequency.

Before selecting an FMC, you should ensure that you are operating within the FMC area designated for the appropriate Air Traffic Service. The appropriate frequency should then be selected before entering the FMC into the transponder.

You must remain outside controlled and other notified airspace and are not in receipt of an Air Traffic Service.

VRP

Edinburgh Radar 121.205 MHz
Frequency Monitoring Code 0440

Edinburgh FMC Area

Glasgow Radar FMC

VRP

Aircraft operating outside controlled airspace but within the area shown are encouraged to monitor Edinburgh Radar on 121.205 MHz and select SSR code 0440.

Due to high terrain, it may not always be possible to monitor Edinburgh Radar below certain altitudes.

Pilots who experience difficulty monitoring Edinburgh Radar are encouraged to obtain a service from Scottish Information.

Edinburgh Radar **121.205 MHz**
Frequency Monitoring Code **0440**
