Frequency Monitoring Codes
and ATIS Frequencies
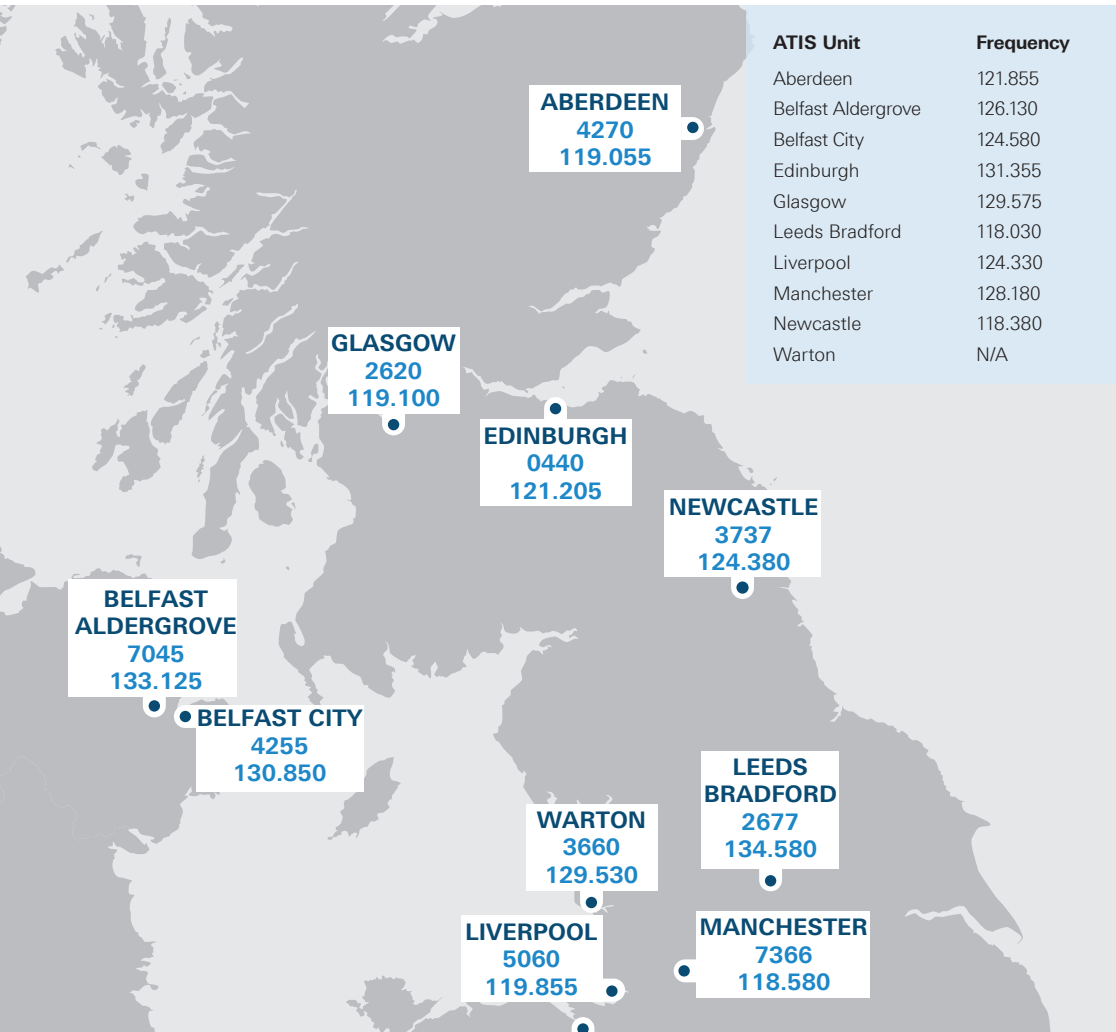

AIRSPACE & SAFETY INITIATIVE

Frequency Monitoring Codes

Listen out on the appropriate frequency and set your transponder to the corresponding listening squawk.

An FMC (squawk) does not imply that you are receiving an air traffic service, nor that you are cleared to enter controlled airspace.

When you leave the area or change frequency, select the SSR transponder code appropriate to your flight rules, 7000 for VFR or 2000 for IFR (squawk conspicuity).

Pilots must refer to AIP supplements and check NOTAMs before each flight.

ATIS Unit	Frequency
Aberdeen	121.855
Belfast Aldergrove	126.130
Belfast City	124.580
