

A Frequency Monitoring Code (FMC) is a unique code which shows radar equipped air traffic control units that you are monitoring a specific frequency.

Before selecting an FMC, you should ensure that you are operating within the FMC area designated for the appropriate Air Traffic Service. The appropriate frequency should then be selected before entering the FMC into the transponder.

You must remain outside controlled and other notified airspace and are not in receipt of an Air Traffic Service. FMCs should only be used during the notified hours of operation of the nominated radar frequency.

Bournemouth FMC area

Aircraft operating outside controlled airspace but within the Bournemouth FMC area and are not using the LARS provided by Bournemouth Radar, Plymouth Military (East), Yeovilton Radar, or Boscombe Down are encouraged to monitor Bournemouth Radar on 119.480 MHz and select SSR code 0011.

Lower Airspace Radar Service (LARS)

Bournemouth Radar 119.480 MHz

Plymouth Military (East) 124.150 MHz*

Yeovilton Radar 127.355 MHz*

Boscombe Down 126.705 MHz*

* LARS weekday only

Bournemouth Radar **119.480 MHz**
Frequency Monitoring Code **0011**
